The Respiratory Care Practitioner holds North Carolina Respiratory Care License number 7335 (the “License”), first issued on June 10, 2013 with an expiration date of June 30, 2015.

3. Waiver of Rights

I, Jessica A. Burris, the Respiratory Care Practitioner, understand that I have each of the following rights:

(Initials)

☐ AB The right to a hearing before the Board;

☐ AB The right to present evidence to disprove all or some of the charges against me;

☐ AB The right to present evidence to limit or reduce any sanction that could be imposed for a violation;

As noted by my initials above, I hereby freely and knowingly waive these rights without further process and agree to the terms of this Consent Order regarding my license. In order to resolve this matter by a Consent Order, I also agree that the Board staff and counsel may discuss this Consent Order with the Board ex parte whether or not the Board accepts this Order as written.

4. Stipulation to Facts

The Licensee and the Board stipulate to the following facts:

A. The Licensee was engaged in the practice of respiratory care in North Carolina when the events occurred that led to the initiation of this complaint.

B. On June 9, 2014, the Board received a complaint from Kathy Fons, Manager of the Cardiopulmonary, Respiratory Care, and Emergency Management Department at Huntersville Medical Center, Huntersville, NC. Ms. Fons reported to the Board that the Licensee was observed by security in a vehicle on hospital property for approximately 1.5 hours during 2 separate incidents on June 2, 2014. Ms. Fons reported that the Licensee stated she has prescriptions for all medications she takes including Hydrocodone at work for a kidney stone/UTI.

C. On June 2, 2014, the Fit-For-Duty policy was followed with a urine and blood test and the licensee was dismissed from work pending the results.

D. On June 5, 2014, the security report completed by Robert Davis stated the Licensee was observed on security camera in a vehicle on hospital property from 1:19 AM to 02:07 AM. The reported stated that the Licensee appeared to be taking medicine.

E. On June 24, 2014, the performance evaluation completed by Kathy Fons stated that the Licensee was in the car for 86 minutes on the night of the occurrence without clocking out leaving the patients without coverage and observed on security camera apparently taking medicine. While the drug test was negative, the determination by Ms. Fons was that the Licensee’s actions compromised patient health, safety, and welfare. The Licensee admitted to leaving the building without clocking out. The Licensee indicated that she was unaware of the time lapse that was documented, but she had her phone on. Per hospital policy, the phone was tested and it did not work according to the security report. The Licensee was terminated.

F. On September 09, 2014, the Licensee was interviewed by the Board’s Investigation and Informal Settlement Committee and confirmed that she had been terminated from Huntersville Medical Center after 11 months of employment.
G. During the interview the Licensee admitted to the events described above. The Licensee admitted that she left the hospital to eat in her friend’s truck, and while in the truck she took an oxycodone dose, while on duty, to reduce the pain that she was experiencing. The Licensee indicated that she was unaware of the time lapse that was documented, but stated that she had her phone on. The Licensee stated that she understands that the phone was tested by security and it did not work according to the security report.

H. During the interview, the Licensee accepted responsibility for her actions and unprofessional behavior during the interview and demonstrated awareness that her actions could have created a serious risk to the care of any patients for whom she was responsible.
